Hobby Gift Create

COLLECTABLE / PERFORMANCE / STYLE

Collectable - must have, desirable, indispensable.

Performance - quality, precision and detail.

Style - print focused, fashion led, harmonious range.

Brand new range of indispensable dressmaking and quilting tools in an 'Arts and Crafts' inspired trend led print. With intricate orals, organic plant forms and stylised leafy motifs, this nature inspired print, in a rich blue colour palette, elevates essential tools, turning them into must have items in your sewing space - that are as beautiful as they are essential, marrying function with form.

Our vision was to create a harmonious, print focused range. Fashion led, yet timeless. It brings to life the emphasis on hand craftsmanship, celebrating the time and love put into sewing, quilting, dressmaking and crafts, honouring the beauty and process of handmade objects and value of handcrafted disciplines and quality.

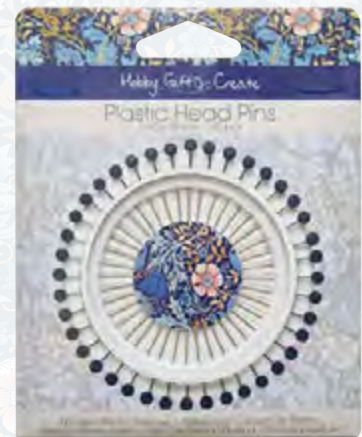

The Arts and Crafts movement took inspiration from romantic and folk style decoration and the natural world. The designs are currently a huge home wear and fashion trend, with a classic aesthetic, loved by many. With a modern-day resurgence, it's a revival of a movement that valued the skill of crafters and artisans over mass-produced goods, which we wanted this collection to represent.
