

Vacancy: Article Management & Data Specialist (32–38 hours)

Accurate, structured and indispensable for our webshop

At De Bondt, a strong product assortment starts with correct and complete product data. As an **Article & Data Management Specialist**, you ensure that all product information in our systems is accurate, up to date and logically organised. You safeguard the quality of our database and webshop and ensure that products become available at the right time and in the right way.

You will work within the Procurement department and collaborate daily with colleagues from Sales, Marketing & Communications, and the Warehouse, as well as with suppliers.

About De Bondt

What began in 1970 as a small family business specialising in buttons and zippers has grown into Europe's leading wholesaler of yarns, haberdashery and craft supplies. From its headquarters in Tynaarlo, De Bondt supplies customers in more than 80 countries.

The company has a strong reputation within the international crafting community and collaborates with influential designers and makers. Well-known brands in the assortment include Scheepjes, Gütermann, KnitPro and Pym.

The core values — reliable, professional, service-oriented, progressive and approachable — form the foundation of every collaboration and innovation.

The Role

In this position you are responsible for managing and updating product data. You process new items, implement changes in pricing and assortment, and ensure the correct categorisation and discoverability in the webshop.

During **product launches and assortment changes**, you make sure everything is administratively and technically correct.

Your Responsibilities

- Managing and updating article and product data.
- Ensuring correct categorisation, consistency and discoverability.
- Recording information such as dimensions, barcodes, HS codes and countries of origin.
- Involvement in the order process.
- Creating, checking and processing import scripts.
- Implementing article changes such as sales units, supplier links and outlet placements.
- Processing sold-out items in Exact based on reports.
- Implementing price changes (cost price, purchase price, sales price and recommended retail price).
- Acting as a point of contact for suppliers and internal departments regarding product and assortment changes.

About You

You enjoy working with structure, clarity and precision. You quickly notice errors or inconsistencies and take immediate action to resolve them. You are able to work independently, but you also actively collaborate with colleagues.

You bring:

- HBO level of working and thinking (higher professional education).
- Knowledge of data processing and data management.
- A highly accurate and structured working style.
- A strong sense of responsibility and a proactive attitude.
- Strong Excel skills; experience with Exact and Magento is an advantage.
- Fluent in Dutch and English. German is a plus.

What De Bondt Offers

- A competitive salary appropriate to your knowledge and experience.
- A challenging role within a dynamic and growing organisation.
- A pleasant working environment with committed and enthusiastic colleagues.
- Plenty of opportunities for personal development and training.
- The prospect of a permanent contract with good performance.
- 5 weeks of holiday, a laptop and phone (where applicable).
- Enjoyable lunches, team outings and a creative working environment where service and collaboration are central.
- An exceptionally positive working atmosphere, great colleagues, fresh fruit every day, and a contribution towards your sports or fitness membership.

Interested?

Are you the accurate and structured colleague who enjoys maintaining clear oversight and ensuring that article data and our assortment are correct down to the smallest detail? Then we would love to hear from you.

Please send your motivation letter and CV to solliciteren@bondt.com. Application deadline: 29 March 2026.
